CERIC-CEI Open Access Training

Project funded by:

CONTACT Workshop. Training in advanced material characterization in Large Scale Research Infrastructures

CERIC Headquarters, Trieste - Italy, 26-27 June 2017

Do you work in a scientific field requiring the use of advanced materials' characterization techniques?

Are you willing to widen the skills acquired during your research career?

Discover CERIC opportunities through lectures and practicals, including training on how to apply for access to large scale facilities

Registration is free of charge and will be open until May 31st.

Places are limited. **Register now:** goo.gl/7paS3D

A limited number of grants, covering the full costs of travel and accommodation, will be available for participants from the following countries: **Albania, Belarus, Bosnia and Herzegovina, FYROM, Moldova, Montenegro, Serbia, Slovakia, Turkey or Ukraine**

www.ceric-eric.eu/CONTACT/

The CONTACT workshop is organized in the framework of the CONTACT project – co-funded by the Central European Initiative – and of the ACCELERATE project, which has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N. 731112
